

## 303<sup>®</sup> Patio Furniture Protectant Instructions™

### "SPF 40 Sunscreen For Your Stuff"

**303<sup>®</sup> PATIO FURNITURE PROTECTANT™** (PFP) really is like SPF 40 Sunscreen for your patio furniture. Regular use gives 100% prevention of UV caused slow-fade. No other "protectant" beautifies as intensely, protects as powerfully or lasts as long. 303<sup>®</sup> Patio Furniture Protectant keeps UV-sensitive materials "like new" year after year. Size: 16oz. Spray Bottle

### **303<sup>®</sup> PATIO FURNITURE PROTECTANT**

Is safe and effective on teak and all plastics, polyethylene, vinyl and clear vinyl, fiberglass, epoxy and other composite resins, powder-coated metal and stainless steel.

Not for textiles (canvas, upholstery, carpet), unfinished leathers or floors.

#### **DIRECTIONS:**

Use only on cleaned surfaces. Before applying 303<sup>®</sup> PFP, clean soiled items thoroughly according to manufacturer directions. Place a drop cloth under the item to be treated to catch any over-spray. Spray on 303<sup>®</sup> PFP, then wipe COMPLETELY dry with a clean, dry, absorbent cloth. NOTE: This product does NOT air dry. Use a second dry cloth to finish the application process. Extra buffing with a dry cloth INCREASES bonding, repellency AND longevity.

Reapplication: For maximum UV Protection and repellency, reapply every 6-8 weeks.

#### **KEEP OUT OF THE REACH OF CHILDREN. STORE AND USE ABOVE FREEZING**

**303<sup>®</sup> PFP is non-toxic, non-flammable**

**303<sup>®</sup> Patio Furniture Protectant** is guaranteed when used as directed. Manufacturer's liability limited to product replacement or refund upon proof of performance and return of unused portion.
